CARBONIZPN DJ FINE GRADE

SOIL ENHANCER

NATURAL & SUSTAINABLE

40 LB BAGS, 40 BAGS/PALLET OR CUSTOM SUPER SACKS

MIRIMICHI GREEN™

Activate Nature.

APPLICATION RATES

Incorporate into a sand blend or apply after aeration.

For additional soil health, apply Nutri-Release at 3-6 oz. per 1,000 SF.

It's never been easier to get a soil amendment into the soil profile! CarbonizPN DJ Fine Grade is a refined, powder-like soil amendment that is ideal for blending into sand mixes, topdressing and aerification. CarbonizPN DJ Fine Grade is a professional blend of premium organics and USDA certified biobased carbon. It remains in the soil to increase fertility and water retention while decreasing nutrient leaching and compaction. By incorporating CarbonizPN DJ Fine Grade into a maintenance program, root development and soil health will increase and the need for fertilizer inputs and irrigation will decrease. All of this is attainable because CarbonizPN DJ Fine Grade promotes a healthy, long-lasting biological rhizome. Try the carbon-rich soil amendment for golf courses or athletic fields construction and maintenance.

PART NUMBERS:
40 LB BAG - 10640
SUPER SACKS - 106SS

CARBONIZPN DJ FINE GRADE IS AN IDEAL SOIL AMENDMENT TO INCORPORATE IN A DRYJECT APPLICATION.

KEY PRODUCT BENEFITS

- Aerates soils and reduces compaction
- Optimizes pH
- Increases nutrient uptake (CEC)
- Increases root development and soil health
- Decreases nutrient leaching
- Increases residual value
