CarbonizPN-G®
with Patented Microbiology

Spreadable Soil Enhancer

DIRECTIONS FOR USE

CarbonizPN-G is a professional-grade spreadable granular soil amendment that can be used for maintaining turf (e.g. residential turf, commercial turf, athletic fields, equine fields, sod, golf courses, erosion control), establishing new sod or seed, and nursery or ornamental planting applications.

COVERAGE

One 40 lb. bag will cover up to 2,000 SF.

APPLICATION INSTRUCTIONS

Routine Lawn Care Maintenance on Warm or Cool Season Grasses:
Spread 20-40 lbs. (½-1 bag) per 1,000 SF.

Topdressing/Aerating or Sod Installation:
Topdress 40-80 lbs. (1-2 bags) per 1,000 SF or apply underneath new sod.

Nurseries & Ornamental Plantings:
Incorporate 2-10% by volume into planting mix or soil.

GUARANTEED ANALYSIS

Soil Amending Ingredients:

Blended Compost	45%
Premium Biochar*	45%
Total Other Ingredients	10%

*Premium Biochar A USDA Certified Biobased Product

CONTAINS NON PLANT FOOD INGREDIENTS:

Bacillus Simplex	2.1 x 10 ⁶ cfu/g
Mycorrhizal Fungi (Glomus Intraradices)	0.66 ppg/g

Derived from: pinewood scraps, swine manure

PURPOSE

Promoting plant growth and improving the quality of soil by conditioning soils through physical means and adding beneficial microbes into the soil's structure/profile. Organic matter binds soil particles into aggregates, improving soil structure and stability, which can reduce erosion.

READ ENTIRE LABEL BEFORE USE

CAUTION - KEEP OUT OF REACH OF CHILDREN
KEEP EMPTY BAGS AWAY FROM CHILDREN
WASH HANDS THOROUGHLY AFTER APPLICATION

Caution Statement:

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/garden.

Avoid storing in direct sunlight.

Store between 40° F and 85° F in a dark place protected from direct sunlight or high heat. Do not allow moisture to come in contact with product that is not being used.

RECOMMENDED EQUIPMENT & SPREADER SETTINGS

Rotary Spreader

CarbonizPN-G can be easily hand-applied or broadcast with a rotary spreader. Most rotary walk-behind spreaders should be set fully open to their highest volume setting to deliver approximately 10 lbs. per 1,000 SF per pass.

For more precise delivery, perform a calibration test to accommodate your specific spreader and walking speed. Using a Breakthru Agitator in combination with your spreader may improve delivery.

CONDITIONS OF SALE, DISCLAIMER AND LIMITATION OF LIABILITY Seller only warrants that this material conforms to the description herein. Seller makes no other warranty, expressed or implied, or guarantee of fitness for a particular purpose or for the safety of any kind. The exclusive and only remedy of the user or buyer and the limit of liability of Mirimichi Green, LLC and Mirimichi Green Express, LLC, including, but not limited to: use, handling, application rates, and results (for which buyer assumes all risk), shall be a refund of the purchase price.
